SUMMARY

Product Manager with hands-on experience building 0→1 AI and SaaS products across talent, healthcare, and real estate. Enjoys working directly with customers to understand problems, validate ideas, and turn insights into product decisions, with experience across discovery, prioritization, and execution. Engineering background enables close collaboration with technical teams and rapid iteration.

EDUCATION

Madan Mohan Malaviya University of Technology

November 2021 - May 2025

B.Tech, Electronics & Communication Engineering - CGPA: 7.98/10 | Gorakhpur, U.P.

EXPERIENCE

AureetureAI

Mar 2026 – Present

Product Lead

Remote

- Owned product strategy from 0→1 through MVP launch of an AI-powered talent discovery platform for fresher hiring, translating hiring pain points into product requirements, workflows, and roadmap priorities.
- Onboarded 1,000+ talents and drove early recruiter adoption, validating both sides of the hiring marketplace and shaping product priorities around candidate discovery and recruiter workflows.
- Built early distribution partnerships with PW IoT and Sheriyans Coding School, expanding talent acquisition channels and strengthening Aureeture's early candidate pipeline.

Nexerve

Dec 2025 – July 2026

Founding Team - Product

Lucknow, IN

- Owned end-to-end product strategy for an AI-powered healthcare SaaS, driving 0→1 MVP from concept to early revenue in under 3 months.
- Conducted 10+ user research and client discovery sessions to validate product-market fit and continuously prioritize the feature roadmap.
- Onboarded 5+ early clients by aligning product capabilities with real business workflows, directly contributing to early revenue within 3 months.

Wingify (VWO)

Jul 2025 – Dec 2025

Engineer Intern

Remote

- Collaborated with product and experimentation teams to improve internal A/B testing workflows and dashboard usability across multiple product squads.
- Built reusable UI systems and component libraries improving dashboard consistency and reducing experimentation setup time.
- Contributed to localization workflows using i18next, enabling international product accessibility across multiple markets.

DiGiLABS

Mar 2025 – Jun 2025

Product Intern

Lucknow, IN (Hybrid)

- Built and shipped a School ERP platform addressing operational inefficiencies across student, teacher, and admin workflows for a real institutional client.
- Translated stakeholder requirements into product features - designing data flows, role-based access, and real-time dashboards across user personas.
- Delivered scalable backend APIs and database-connected interfaces enabling live operational data across all user roles.

PROJECTS

Parth Hospital - AI Healthcare SaaS | *Case Study* ↗ | Next.js, Fastify, PostgreSQL, Gemini API, n8n

- Defined and built a hospital ERP streamlining appointment management, clinical workflows, and internal coordination across multiple staff roles.

- Integrated AI-powered transcription and clinical summaries via Gemini API, reducing staff documentation time by ~40% and improving care throughput.
- Automated patient follow-up and notification workflows via n8n, cutting manual coordination overhead and improving post-visit engagement.

AureetureAI- AI Native Hiring & Talent Discovery Platform | *Case Study* ↗ | Next.js, Node.js, AWS, OpenRouter

- Designed the two-sided talent marketplace across candidate onboarding, profiles, recruiter discovery, and hiring workflows, optimizing the product around fresher hiring use cases.
- Built and shipped AI-powered talent discovery workflows to help recruiters identify relevant candidates beyond conventional keyword-based search.
- Scaled the platform to 1,000+ talents with early recruiter adoption, validating initial marketplace demand and informing subsequent product iterations.

NexFlow - Internal Product Management Platform | *Case Study* ↗ | Product Strategy, Next.js, PostgreSQL

- Led end-to-end product strategy and execution of NexFlow, an internal project management platform adopted by 15+ team members to manage 20+ projects and 500+ tasks across engineering, QA, design, and product teams.
- Owned product discovery, PRD writing, roadmap planning, and feature prioritization; shipped core modules including Kanban boards, RBAC, support ticketing, project dashboards, real-time notifications, and an AI-powered sprint effort prediction system.
- Drove continuous product improvements through team feedback and usage insights, consolidating multiple workflows into a single workspace and improving cross-functional collaboration and delivery visibility

FindFast - Commercial Real Estate Platform | *Case Study* ↗ | Next.js, Node.js, MongoDB, Firebase

- Identified gap in commercial property discovery; designed structured listing flows and search UX to improve match quality between businesses and commercial spaces.
- Shipped end-to-end platform covering listings, search filters, and lead capture - improving discovery velocity and lead conversion for commercial tenants.
- Grew the platform to 600+ verified property listings, 200+ registered users, and 50+ paying customers, demonstrating successful marketplace adoption and early revenue validation.

SKILLS

Product Management: Product Strategy, Product Discovery, Roadmapping, PRD Writing, MVP Definition, Prioritization (RICE/MoSCoW), User Research, Stakeholder Management, Agile

Analytics & Experimentation: Product Analytics, A/B Testing, KPI Definition, Funnel Analysis, Market Research, User Feedback Analysis

Tools: Jira, Cursor, Figma, Google Analytics, PostHog, Mixpanel, Notion, Linear

AI: LLM Integration, Gemini API, AI Feature Design, Automation, Prompt Optimization

Technical: SQL, Python, TypeScript, Next.js, Node.js

LEADERSHIP

- Joint Secretary, E-Cell MMMUT - Organized entrepreneurship events and startup workshops for 500+ students. (Aug 2024 – May 2025)
- Technical Head, ECES MMMUT - Led technical initiatives and managed a team of 15+ student volunteers. (Apr 2024 – May 2025)

ACHIEVEMENTS

- Selected for multiple rounds of AJVC pre-seed funding evaluation for an AI healthcare SaaS.
- Qualified for State round of Smart India Hackathon 2022 (SIH'22).
